Dear Valued Customer,

We are writing to provide information to help you understand Baxter's product supply status for our IV solutions portfolio.

As part of Baxter's Global manufacturing network, Baxter Canada IV solutions portfolio is supplied by several plants including Puerto Rico and our local manufacturing facility in Alliston, Ontario.

Baxter Canada offers 0.9% Sodium Chloride Injection and 5% Dextrose Injection IV solutions in VIAFLEX containers with sizes ranging from 25 mL to 1,000 mL. We also offer 250 mL and 500 mL 0.9% Sodium Chloride Injection and 5% Dextrose Injection IV solutions in AVIVA Containers (non-PVC/non-DEHP fluid pathways). Please find a summary of these products, along with their current supply status below:
